EQUIPMENT DROP-OFF, PICK-UP, AND RETURN

Customers and drivers cannot take the TCS freight elevator for any reason. After handing off any carts or gear to a technician at the loading dock of freight 56 on the ground level, visitors with a valid pass can then enter the building to get to our space by coming into the main lobby of Building 77 and then taking the passenger elevators to the 9th floor and buzzing in at Suite 901. Production Vehicles, using the Clinton Gate entrance, should head to Freight 56 unless otherwise instructed. Email or print a copy of the order for your driver(s) for Navy Yard security clearance. Upon arrival, drivers and clients should call 212-582-3749, providing their name and production company. A receiving or prep technician will promptly assist with the equipment. Do not park and use the passenger elevator.
